

Twilight Trains Seating Guide - 2022

Our seating is sold in compartments to ensure your group have a space all to yourselves. Check out the various compartment types below to see what's most suitable for you.

Red Standard Compartment – £72

Standard Compartment: 4-6 people

These compartments are in our red carriages. They seat between 4 and 6 people on 2 facing benches, (6 is the absolute **maximum** number of people including babies). The benches are 1.1 metres long. They have fully closable windows to keep the worst of the weather out. There are plenty of these compartments per train. If a disabled sign is displayed on the seating plan it means this compartment can be converted to a wheelchair space. In this case, 1 bench is removed and there is room for 1 wheelchair and 1 other passenger.

The Perrygrove Railway Adventure
